Class Descriptions

HORDER **PILATES**

Modified Pilates

On the Modified Pilates class you will work on building on your core strength, flexibility, balance, muscle strength and posture. Different levels of some exercises will be given along with the option to use some small equipment, such as softballs and resistance bands, so you will feel the benefit of working safely whilst being challenged.

Advanced Pilates

The Advanced Pilates class is designed for those with more experience in Pilates. A variety of movements and use of small equipment to target all areas of your body and improve postural alignment, mobility, strength and flexibility will see your body moving with greater ease, and confidence in every day activities and sport.

HORDER **STANDING PILATES**

Our Standing Pilates is a mixed ability class suitable for those who find it difficult getting on and off the floor and for those with osteoporosis or osteopenia and want to work at their own pace in a gentle, relaxed and friendly class.

The exercises are performed in a standing position with all the benefits of mat-based Pilates and help to optimise posture and gait, is gentle on vulnerable joints and focuses on improving balance and muscle strength, giving confidence for everyday activities.

HORDER **FITNESS**

A dynamic, full body workout designed to boost energy, improve endurance, and keep you moving from start to finish. Expect a mix of cardio intervals, functional movement patterns, and bodyweight conditioning that challenge every major muscle group. This class is perfect for anyone looking to elevate their fitness level in a fun, motivating environment.

HORDER **BALANCE**

A slow flow, stability focused session that helps you reconnect with your body's centre. Through controlled mobility exercises, core strengthening sequences, and mindful posture work, you'll improve coordination, reduce tension, and enhance overall body awareness. Ideal for all levels — especially those wanting to move with more confidence and ease.

HORDER **STRENGTH**

A powerful, technique driven class built to increase muscle strength, tone, and resilience. Using progressive resistance training, compound lifts, and targeted muscle group circuits, you'll develop strength safely and effectively. Suitable for beginners and seasoned lifters alike, with options to scale every movement.
